

DON'T BE IN THE DARK.
THE FUTURE OF LIGHTING HAS ARRIVED.

AQUARII

INNOVATIVE LED LIGHTING SOLUTIONS

The AQUARII Difference

THE FUTURE OF LED LIGHTING IS HERE

For cultural venues, lighting is a critical aspect of delivering a rich experience. Yet, many venues are underserved by commodity LED products attempting to meet specialized lighting needs. Enter the Aquarii next generation LED technology solution – a platform engineered specifically to address the unique challenges of cultural venue downlighting. At Aquarii, we choose to light the world intelligently because we believe that every venue deserves to be seen in the best possible light.

SOLVING THE SHORTCOMINGS OF LED LIGHTING

Aquarii is a team of seasoned business leaders and lighting engineers with a clear vision for the next generation of LED technology solutions. The answer? To develop a platform-based solution that delivers near perfect lighting and makes high-end cultural venues shine by solving the lumen output, dimming curve, noise reduction, room balancing and customization limitations of traditional LED products.

ENGINEERING NEW TECHNOLOGY THAT DELIVERS UNMATCHED EFFICIENCY

While the Aquarii next generation LED technology platform delivers an unrivaled lighting experience in every venue, equally important, it delivers unmatched efficiency that means less light fixtures required, daily energy savings, low maintenance and longer life for each and every Aquarii installation.

THE ULTIMATE IN INTENSITY, EFFICIENCY AND CONTROL

The Aquarii difference is not based in quality components; it's driven by an innovative software and hardware solution that also delivers maximum intensity and energy efficiency of each component while also providing the user with flexible control of the venue lighting experience.

SEE YOUR VENUE IN A DIFFERENT LIGHT

Aquarii serves some of the most prestigious cultural venues in the world. From the Samuel Goldwyn Theater to The Fillmore to houses of worship throughout the United States, more customers are turning to Aquarii to put their venue in the best possible light. Whether you are looking to retrofit your venue or embarking on a new development project, explore the possibilities with Aquarii and you will see your venue in a different light.

PERSONAL CUSTOMER SUPPORT

At Aquarii, we pride ourselves on our commitment to our customers. We are always available to answer questions and assist along the way at all stages of a project. We offer impeccable customer service, engineering and technical support so that only our lights are left hanging.

The next generation of LED lighting is here.

BRILLIANT COLOR

Deep blues, radiant reds and vibrant greens combine to deliver the richest hues and broadest color spectrum now commercially available in a downlight configuration. Just add Aquarii to your next project and you will truly see your venue in a different light.

Available in:

Standard White
Red/Green/Blue/White (RGBW)
Blue/White (BW)
Tunable White (TW)

Coming Soon:

Red/Green/Blue/Amber (RGBA)

UNMATCHED EFFICIENCY

Energy efficient and cost effective, Aquarii LED lighting sets the standard for lumens per watt efficiency. In fact, Aquarii fixtures boast a ratio of up to 120 lumens per watt while delivering top-end intensity that is unmatched by the competition.

SUPERIOR DIMMING

Aquarii's elegant, smooth dimming curve, delivered via 16-bit processing, offers a perfectly continuous fade from high intensity to blackout (0%). No stepping, no flicker, no shimmer...just pure, perfect light.

PERFECT BALANCE

The Aquarii combination of superior intensity, efficiency and dimming with individual control over each light is the key to delivering perfectly balanced lighting with a fraction of the fixtures required by competitive products.

ZERO NOISE

Every Aquarii light employs an ultra-efficient heat sink that eliminates the need for on-board cooling fans – even at 15,000 lumen output. The end result is superior lighting that's absolutely silent and requires virtually no maintenance.

Only AQUARII can deliver a level of customization that can truly set your venue apart – *and that makes all the difference.*

DIVERSE APPLICATIONS

There's an Aquarii light for every downlight application. From entryways and hallways to house lights and audience seating, you will find Aquarii lighting the way for houses of worship, theatres, convention centers, museums, academic institutions and many other cultural venues.

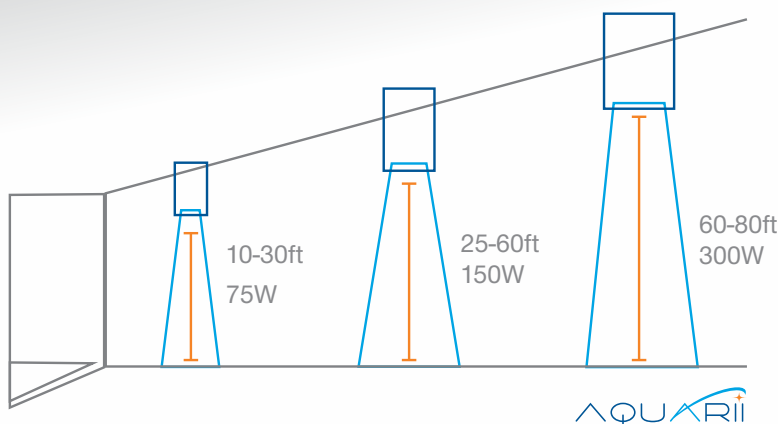

100% TESTED

When it comes to lighting world-renowned cultural venues, quality is everything. At Aquarii, we are 100% committed to quality. That's why we do not sample test - we test and run each and every light that leaves our facility, including communication and temperature testing, assuring 100% quality for your venue.

TOTAL CUSTOMIZATION

Only Aquarii can deliver a level of customization that can truly set your venue apart – and that makes all the difference. We can provide custom housing cylinders and trim rings with powder-coat RAL colors and graphics to compliment the décor of any venue as well as custom fabrication of mounting styles to accommodate unique design challenges.

The Aquarii platform delivers across **a broad range of power, intensity, illumination beam and operational heights** to serve multiple applications throughout any venue.

Axceleron

SETTING THE STANDARD FOR VENUES.

Optimum Installation Heights:
25ft (7.6m) to 60ft (18.3m)

**Axceleron is perfect for lighting main rooms,
house lights and staging applications in:**

Theaters	Exhibit Halls
Houses of Worship	Atriums
Convention Centers	Airport Corridors
Museums	Accent Lighting for
Academic Institutions	Buildings

ABOUT

The work horse of the Aquarii line. Our LED downlight fixture combines state-of-the-art features with superior performance and offers a myriad of options, aimed at meeting each and every lighting need all while considering cost effectiveness and energy efficiency. With unending applications, the Axceleron's vast and customizable functionality can be tailored to fit any need. The Axceleron is the ideal downlight for theatres, houses of worship, academic institutions, convention centers and more.

AXCELERON OPTIONS:

- Wattages available up to 150W
- Average of 12,000 lumens
- Standard color temperatures of 3000K, 4000K and 5000K are available; additional color temperatures can be special ordered
- Standard CRI of 80; 90 CRI can be special ordered for color temperatures below 4000K
- Beam angles of 14, 18, 28, 36, 54, 70, 110, Asymmetric and Wall Wash degree
- Constant, 0-10V, Line voltage dimming or DMX/RDM control
- DMX comes standard with a RJ45 for connection. Other options available for DMX control are XLR-5 Pin, screw terminal or an Insulation Displacement Connector (IDC).
- Mounting style options include c-clamp, pendant (up to 42° swivel), air craft cable, yoke mount, wall bracket mount and recessed kits for flat and sloped ceilings.
- IP20, rated for damp locations.
- Available add-ons include concentric ring glare reducers, surge protectors and more custom options to meet unique venue requirements.
- Off-white or black housings come standard. We also offer custom options of more than 150 RAL powder coated colors, a brushed aluminum style, or even graphics/designs to suit your facility's every need.

**These are our standard specifications.
For customization needs please contact us.**

Academic Institutions	Buildings

ABOUT

The baby brother of the Axceleron. The Zino offers all the functionality and customization in a smaller package. The Zino is a 6" diameter downlight ideal for mounting locations from 15 ft to 30 ft, where the Axceleron may be too large or powerful for the space. Corridors, below balconies or in entryways, where smaller fixtures are needed, that's where the Zino's really shines.

Caprius

A PERFECT MATCH FOR THEATERS.

Optimum Installation Heights:
25ft (7.6m) to 50ft (15.2m)

Caprius is perfect for lighting the following:

Theatres and Performing Arts Centers
Academic Institutions — Auditoriums

ABOUT

The Caprius delivers two fixtures in one with a high intensity white work light and a deep blue running light.

CAPRIUS OPTIONS:

- Wattage: white - 115W & blue - 38W
- Up to 9,000 (White) & 7,500 (Blue) lumen output
- 3000K White
- 80CRI Standard (90CRI optional)
- Beam angles of 14, 18, 28, 36, 70, Asymmetric, and Wall Wash degree
- DMX/RDM control
- DMX comes standard with a RJ45 for connection. Other options available for DMX control are XLR-5 Pin, screw terminal or an Insulation Displacement Connector (IDC).
- Mounting style options include c-clamp, wall bracket mount, yoke mount, pendant (up to 42° swivel), and aircraft cable.
- IP20, rated for damp (non-condensing) locations.
- Off-white or black housings come standard. We also offer custom options of more than 150 RAL powder coated colors, a brushed aluminum style, or even graphics/designs to suit your facility's every need.

**These are our standard specifications.

¹ Consult factory before ordering.

² DMX/RDM controls choice can be connected with DMX or DMX/RDM controls.

³ Recessed sloped kits must be installed in accessible ceilings.

Options

FINISHES, MOUNTS & CONNECTIONS

FINISHES THAT FIT YOUR DESIGN

Customized finishes can add a level of sophistication to your venue. Custom housing cylinders and trim rings in brushed aluminum, custom powder-coated RAL colors or with special custom graphics offer exceptional interior design flexibility as well as potential branding opportunities in your venue. If you can imagine it, we can create it.

MORE CUSTOMIZATION OPTIONS

When it comes to customization, we solve every challenge. Whether you are looking for us to fabricate special mounting hardware or solve the puzzle of an innovative venue design, we welcome the opportunity to put our team to work to ensure you can bring your unique design features to life.

Available add-ons of concentric ring glare reducers, surge protectors and more custom options to meet unique venue requirements.

MOUNTING STYLE OPTIONS

We offer every imaginable mounting style to cover every imaginable configuration. From pendants and aircraft cable to recessed and yoke mounts, you can find Aquarii lighting mounts that fit the bill throughout your venue. And, if your lighting design is daringly unique, we're happy to design a specialized mounting system to meet your needs.

RECESSED MOUNT AXCELERON

SUPERIOR LIGHTING SOFTWARE GIVES YOU COMPLETE CONTROL.

Our IDC, XLR 5-Pin and RJ45 DMX/RDM control connections let you tap your existing lighting control system into the potential of our Aquarii lighting control software. You'll find that the enhanced functionality can take your existing control system to new heights. If you don't currently have RDM, just add our optional programming tablet to your Aquarii lighting solution and you can program each individual light.
